

we learn, we build, we play with  
**LEGO® Bricks**

Making learning **FUN**  
with LEGO® Bricks!!

## St. Mary's After School Enrichment Class Space Adventures with LEGO® Bricks!!

Each week, students will learn about real-life space exploration and build a new LEGO® Brick model related to the NASA space program. Models include a satellite, a lunar module, a centrifuge which astronauts use to prepare for the physical sensations of launch, a treadmill which astronauts use to stay fit in space, and a “space robot”. During this unit, students will learn some of the science behind launching things into orbit, will hear about the most-distant man-made object in the universe, and discuss what it is like to be an astronaut in space. Are you an adventurer who loves space exploration? Then you’ll love our Space theme projects. Let Bricks 4 Kidz launch your imagination to outer-space and beyond!

**January 10th–February 14th**

**Fridays: 3pm–4pm**

**Cost: \$60 per 6 week session**
